Turpin + Crawford Studio:

Jennifer Turpin and artist Michaelie Crawford, have worked collaboratively on numerous award winning public art projects and have over 18 years experience bringing together art, environment and the public domain. Creating a nexus between form, energy, environment and audience, the works seek to heighten awareness of being in place and time

**As we have limited space
please RSVP to:**

Jennifer Turpin is a public artist who creates dynamic site-specific, kinetic artworks at the interface of art, science, nature and the built environment. Engaging water, wind and light as sculptural media, the artworks are rhythmic, responsive and transformative 'performances' in the everyday life of the city.
